

The background of the entire image is a complex, abstract network of nodes and lines. The nodes are represented by circles of varying shades of gray, white, and black. These nodes are interconnected by thin, light gray lines, creating a web-like structure that fills the entire frame. The density of the network is higher in the center and right side, with more nodes and connections, while the left side is sparser.

FIB Award 2014 for Outstanding Concrete Structures

INSPIRATION 源起

Trigo, inspired by Copenhagen's icon, AC Hotel Bella Sky, the largest hotel in Scandinavia, shapes its functional architectural form into dynamic and appealing surroundings.

Trigo的靈感源自哥本哈根的標誌性建築，
貝拉天空酒店，斯堪地納維亞地區最大的飯店。
藉著功能性建築外形打造充滿動能和魅力的環境。

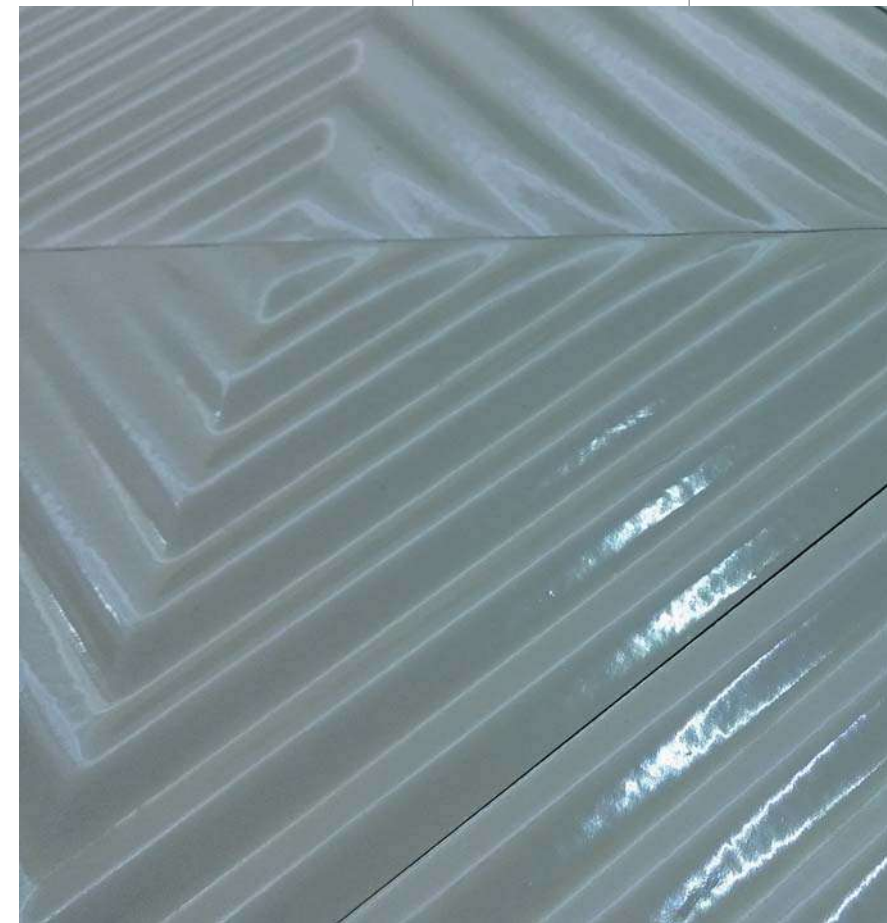

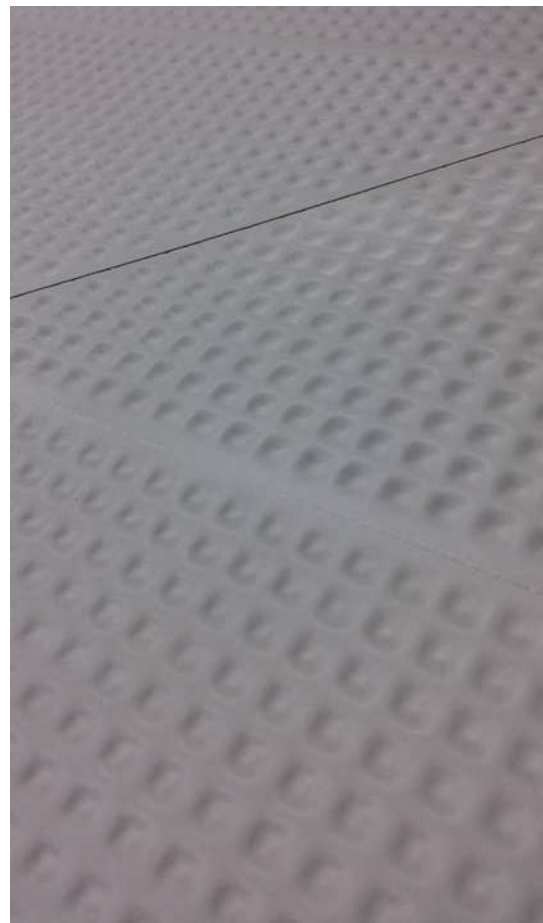

A FORM of FUNCTION 功能性外觀

The tradition in Nordic design makes Trigo a balanced and fascinating creation. The essential geometric reliefs on isosceles triangles jointly perform a variety of architectural decorations, yet meet functional demands both indoors and outdoors.

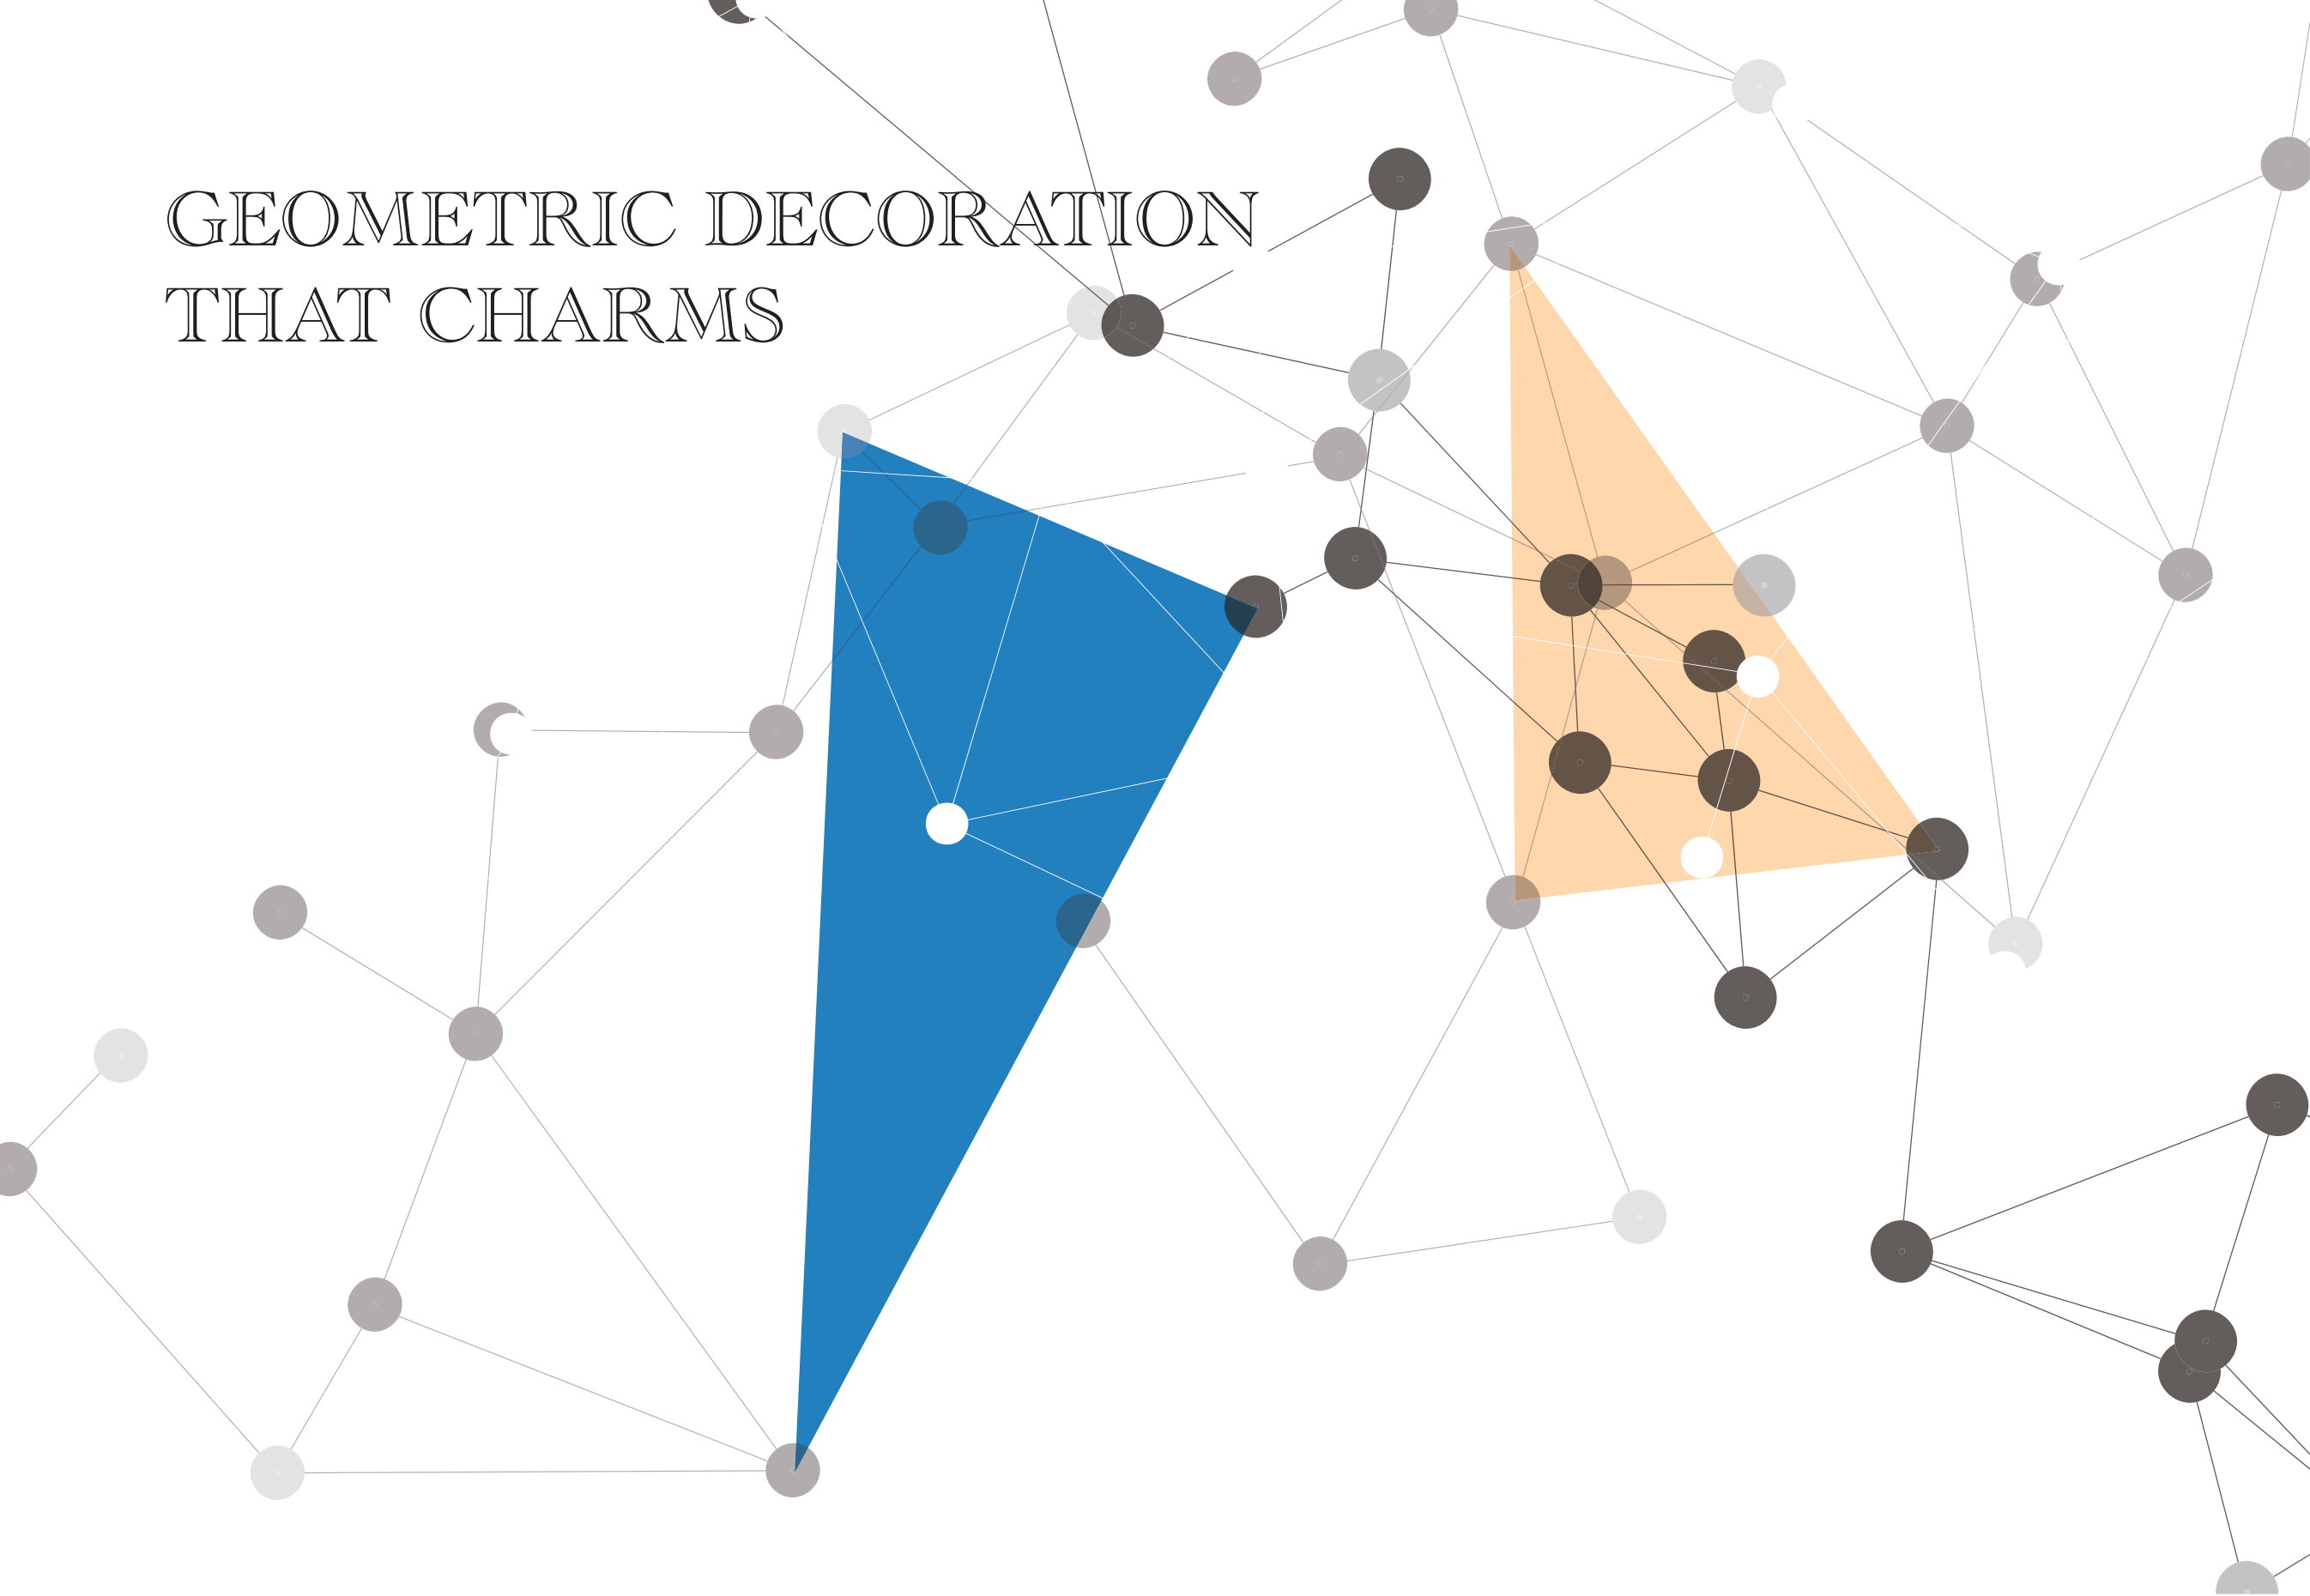

承襲北歐設計傳統，Trigo成為一均衡而迷人的作品。

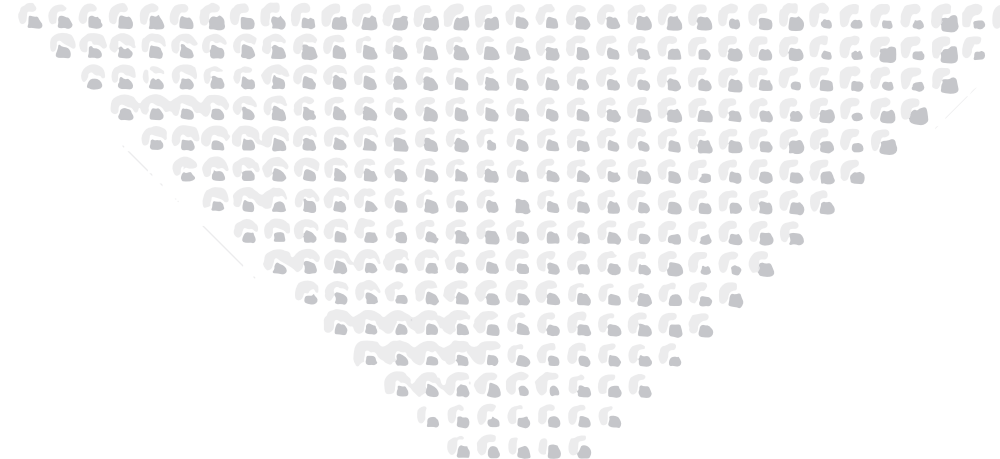

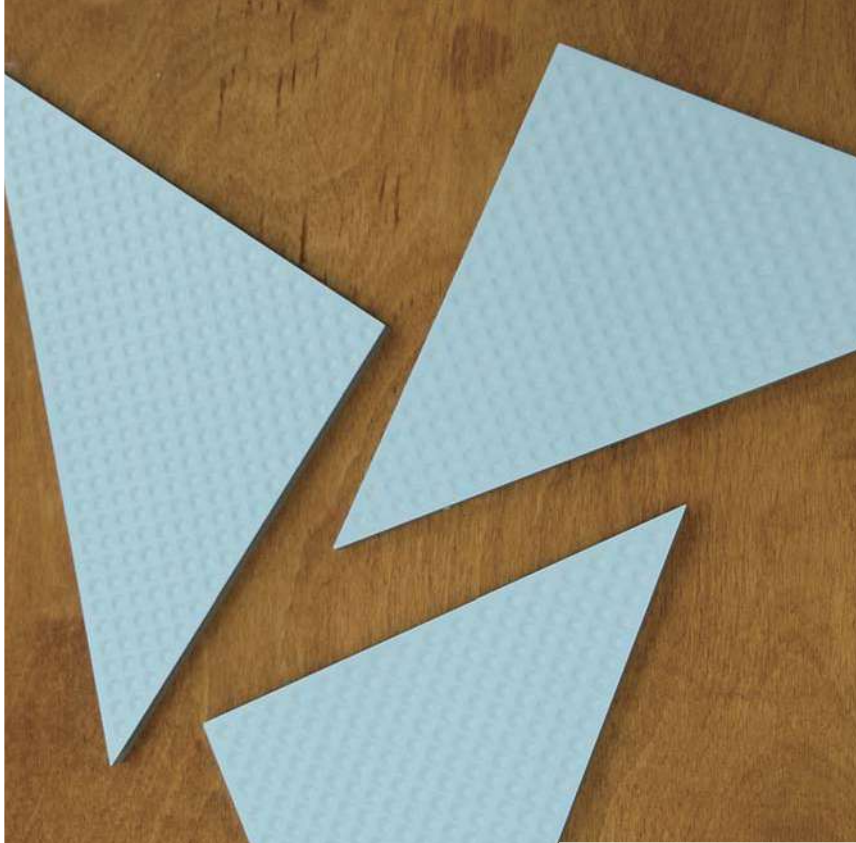

等腰三角形上的基本幾何表面，共演各種建築裝飾，

並滿足室內和室外的功能要求。
